

MONROE COLLEGE

MANDATORY IMMUNIZATION RECORD VERIFICATION FORM

NYS Public Health law requires that these forms must be completed in order to attend Monroe College. If you need help in obtaining these immunizations, contact the Office of Student Health and Wellness at 914.740.6459.

TO BE COMPLETED AND SIGNED BY A HEALTH CARE PROVIDER (Dates must include Month, Day, Year)

Name (Last, First, Middle) _____

Date of Birth _____ Age _____

Current Address _____

City _____ State _____ Zip _____

Student Signature _____ Date _____
(Parent or Guardian if student is a minor)

NEW YORK STATE, PUBLIC HEALTH LAW, CHAPTER 2165 requires all students to provide Monroe College with proof of immunity to measles, mumps and rubella (MMR). Proof of immunity is defined as 2 doses of measles vaccine and 1 dose each of rubella and mumps vaccine. The first dose must be no more than 4 days prior to the students first birthday and the second at least 28 days after the first dose. Acceptable forms of proof include:

1. Childhood immunization records showing the exact dates of your vaccines or
2. Positive blood test for immunity (titers)
3. This form completed by your health care provider, dated, signed and stamped.

MMR (Measles, Mumps, Rubella — Combined) Vaccine

MONROE COLLEGE

MENINGITIS INFORMATION

New York State Public Health Law 2167 requires all post secondary institutions to distribute information about meningococcal meningitis and meningitis immunization to all students. Meningitis is rare. However, when it strikes, its flu-like symptoms make diagnosis difficult. If not treated early, meningitis can lead to swelling of the fluid surrounding the brain and spinal column as well as severe and permanent disabilities, such as hearing loss, brain damage, seizures, limb amputation and even death.

Cases of meningitis among teens and young adults 15-24 years of age (the age of most college students) have more than doubled since 1991. The disease strikes about 3,000 Americans each year and claims about 300 lives. Between 100 and 125 meningitis cases on college campuses and as many as 15 students will die from the disease.

A vaccine is available that protects against four types of the bacteria that cause meningitis in the United States- types A, C, Y, and W-135. These types account for nearly two thirds of meningitis cases among college students. If you wish to obtain a vaccination against this disease, contact your physician for availability and cost. The vaccine is available in New Rochelle for an estimated cost of \$100.00.

Monroe College is required to have the following document completed and on file:

MENINGOCOCCAL MENINGITIS RESPONSE

TO BE COMPLETED AND SIGNED BY THE STUDENT OR PARENT/GUARDIAN IF STUDENT IS A MINOR:

Check one box and sign below:

I (my child) have had the meningococcal meningitis immunization within the past 10 years.

Date received: / /
MM DD YYYY

I have read, or have had explained to me, the information regarding meningococcal meningitis disease.

I understand the risks of not receiving the vaccine. I have decided that I (my child) will not obtain immunization against meningococcal meningitis disease.
